Prof **Laszlo Madacsy** is the Professor Emeritus of Paediatrics at the Semmelweis University in Budapest, Hungary.

Over the past 40 years he has undertaken specialist additional training in diabetes and metabolism, paediatric pulmonology and pharmacology and pharmacogenetics.

Laszlo is a member of the Board at IDF-Europe and an active member of both ISPAD and EASD.

He has worked closely with Finland on a number of projects and interventions and currently is a participant in the TRIGR study.

He is married and he has 2 sons, and his interests outside work include history and music.
