**Agnieszka Szypowska** MD, PhD is Consultant of  
Diabetology at the Department of Paediatric  
Diabetology, Medical University of Warsaw, Poland.

She studied Human Medicine at the University of  
Warsaw, did her paediatric training at the Public  
Paediatric Teaching Hospital in Warsaw and specialised  
in Diabetology.

Her special interest is diabetes education. She is the  
coordinator of Polish Prospective Pump Study assessing  
the efficacy of insulin pump therapy in young children,  
the initiative followed more than 1300 children from  
Poland, and the pumps are funded by the Polish charity  
organisation the Great Christmas Orchestra.

She is the co-investigator of Polish and international  
trials (ONSET-trial, NN304-168).
